UNIQUE SELLING POINTS

Verified India entry for Japanese SMEs 繋

From “which state?” to “send the first email” — with evidence at every step.

1 Every claim shows its evidence — and we say when we don’t know

Market ratings carry a source and a date. Missing data is shown as **Unknown**, never guessed. Each compliance rule says whether it is *official*, *secondary*, *sources conflict* or *general guidance*. The AI Advisor tags every sentence: F fact U your input E estimate H hypothesis.

> *“Other tools give confident answers. TsunaGo shows which answers are verified, which are estimates, and which no one knows yet.”*

WHY IT WINS Answers the judges’ first worry about AI (hallucination) before they ask. Hardest feature for anyone to copy.

2 An AI agent that finds — and proves — partners

Partner Scout plans its own searches, reads Indian companies’ own websites, and checks every quote, email and phone number word for word against the page. Too few good matches? It reflects and searches again. Then it writes a bilingual introduction the SME sends from its own Gmail, after a confirm step.

> *“It doesn’t just suggest companies. It proves what it found — nothing is marked verified unless the page actually says it.”*

WHY IT WINS Technical implementation (30%) and PS part 2 — “identify, evaluate **and verify**” partners.

3 One plan covering all six parts of the problem — in English and Japanese

Market → Partners → Localize & price → Compliance → Culture → Pilot, with a progress checklist and saved ventures. The full interface switches to 日本語.

> *“Today an SME needs a market report, a partner database, a consultant, a lawyer and a culture trainer. TsunaGo is one plan.”*

WHY IT WINS Shows complete understanding of JETRO-PS-01 (problem understanding, 20%).

TAGLINE	ALTERNATIVE	JAPANESE
Verified India entry for Japanese SMEs.	From “which state?” to “send the first email” — with evidence.	繋 — 日本とインドを、確かな一歩で。

SUPPORTING USPS — FOR THE "WHY US" SLIDE AND Q&A

4 Catches the Japan ↔ India culture gap

The message coach flags that 「前向きに検討します」 ("we'll consider it positively") may be read as a **yes** in India, rewrites the message, and gives a Japanese back-translation. Negotiation prep builds give-and-get concessions.

> *"Most Japan–India deals stall on misunderstandings, not products."*

5 "What if?" in one click

Flip the service model, switch subsidiary ↔ joint venture, or duplicate a venture — scores, timeline and costs update instantly. Matches the PS's "scenario planning" direction.

> *"A consultant gives one snapshot. TsunaGo tests five scenarios in a minute."*

6 Compliance as a timeline, not a PDF

Ordered steps with authority, documents, days and fee ranges, a critical path (e.g. 76 days to operate as a subsidiary), yen/rupee costs, a duty calculator with the Japan–India CEPA rate, and a 2026 rule-change feed.

> *"Not a list of laws: who files what, in what order, by when — and what happens if you miss it."*

7 Hard to break, cheap to run

Free open models with automatic fallback if a provider retires one; a recorded backup run for demos; nothing sent without a confirm; contacts only from companies' own sites (directories skipped).

> *"Near-zero cost per SME — JETRO could offer it to thousands."*

VERSUS THE ALTERNATIVES

POSITIONING — SAY THIS TO JETRO JUDGES

"We don't replace JETRO's advisers. We make sure every SME arrives at their desk with a verified, structured plan — so their time goes on judgement, not first-pass research."

NOTES FOR THE SLIDE MAKER

- **One slide for USPs 1–3**: big number, one-line title, one-line proof. Keep the "say" lines for the speaker, not the slide.
- Use real screenshots: the **Unknown** ratings, Partner Scout's live steps, the stage tabs, the coloured F/U/E/H chips.
- Brand: white background, thin black lines, sakura pink **#D76F8C**, red **#B8323F**, Cinzel headings, Inter body.
- Comparison table = its own slide; highlight the TsunaGo column in pale pink (#FCEBF0).
- End on the positioning line — the judges are from JETRO, frame TsunaGo as their ally.
- Keep USPs 4–7 for a backup slide or Q&A.
